* By this time, presumably, all persons receiving these Bulletins are aware that there is no publishing schedule for them. Also, that they consist of items not suitable for either Round Robin or Clips & Quotes -- and that I cannot attempt to justify printing what seem to be trivia and/or unsupported gossip -- and that there is a very real censorship in effect and has been for a long time, and may tighten up at any moment; in which case the P.B. service may still be able to carry on. There is a surprising interest in these 'buls' and at least one of our contemporaries has started something very similar.

We have never made any fixed charge for the bulletins - but when demand for a publication builds up, a score of small demons named EXPENSES pop out of their invisible holes, 'for to annoy'. If any of you want to help-with-the-hatchet against these pests, put in a dollar sometime for the PB Dept. (Many thanks to those who have already done this - and keep us supplied with your self-addressed envelopes.- If a change of address, please also send us corrected envelopes, to save ofc. time).

ITEM 1:

That ridiculous story entitled CHILDREN' DAY AT CASA BLANCA - according to which a whole covey of small-time pranksters out of Etheria scared the wits out out of some seven or eight small children - near Riverside, Calif. One reason I accept this account (in essentials) is that (a) youngsters from four to fourteen simply do NOT know anything about the etheric origin of the aeroforms - or the rest of that somewhat complex interpretation, yet (b) every described event at Casa Blanca fits with that interpretation like hand to glove.

We have materialization, gradual and slow, and the 'demat' also. The ether craft become translucent, then transparent (meaning they disappear without going away). There is an incessant play of colors. The entities themselves were at times transparent. There is a display of levitational force. There is partial mat - as of the arm and beckoning hand "suspended in air." It is a plausible inference fromthe whole scene, that these visitors were adult in size and mind on their own plane of existence; but here they were attempting contact with children only. When a child went to call its parents, the UFO disappeared. Maybe they despaired of finding an adult who was half-awake. . . And it's too bad that our stencil drawing couldn't show the colors.

If some half-awake physicist had seen this display (ring-around-rosy with the goblins) I wonder where and in what textbook he would have found physics and natural laws and psycho-physical effects to cover the case and 'explain everything'. This is a case where science without metaphysics is helpless - and their combination is hardly less so. But to come back to our pet chameleon, here we have a sequence of events (granting their reality) which NO OTHER INTERPRETATION than the Etheric or "4-D" concept can deal with in any rational manner. (But A Bas and Ah Bah with the unintelligible, anyway. Let us alone, can't you!)

"Of all the theories of origin, in and out of the solar system, the one sup - ported by all the observations is the 4-D or ethereal concept. It merits sincere investigation."

This statement by Assoc. R.K. Carpenter is to appear, along with a 100-word synopsis of the 4-D theory, in a Bulletin of the New Jersey State Science Teachers' Association. Prepared for the Bulletin by Assoc. R.K.C. at the request of Father Lucien Donnelly. (ml)

Address of Assoc. R.K. Carpenter is 10 Morse Ave.,Butler, N.J. Assoc. RKC recently delivered a lecture on the subject of the UFO, and is identified with science instruction in the secondary schools of his State. (v. para. sup.)

CORRESPONDENCE - Associate D.T. Kenny, of Pretoria. So. Africa, sends us (A) comments of his own on the current situation (B) remarks by Mr. Fred. Stone, Director of all UFO Clubs in Australia (C) clippings from the Rand Daily Mail concerning extraordinary weather conditions in So. Africa. Assoc. Kenny writes:

South Africa ---

Australia ---

"Some time ago I sent a copy of the saucer landing at the nickel mine in Canada, to Director Stone; but as you will see he has a different interpretation as to what the space man wanted the worker to do" (probably, to blow up the mine. DTK). "The report of Lady Fatima is interesting ... so too is the copy of the warning notice being sent out to all Flying Saucer stations. I am sending this to you as being of possible interest, as one more angle (on these phenomena) ... a pending disaster (?), possibly Japan or Asia ...

Further, on the night of November 6, 1955, my wife took some friends to services at a spiritualist church here, conducted by a famous medium from Holland, and the following 'message' came through during the trance state:

> "A big catastrophe, such as the world has never known is on the brink of taking place early next year (1956). They are trying on the other side to prevent it, because the power of God is all that is left (able to prevent it). . . "

- end of quote from Assoc. DTK.

Remarks by Director Stone ("B" sup.)

'I am convinced from previous investigations and from personal experience that what the employee was asked to do was quite different from the conjecture of the writer of the article ... but myideas are so deeply involved with current and future events that I do not feel at liberty to discuss them ... except to say that what happened to him will happen to many and is involved in the scripture phrase, "the hour of temptation which is to come upon the world". . . I would doubt my own experience had it not been strongly confirmed with/24 hours by a revelation to a person of great value to me here, whose work is so much on the secret planes that he must have the OK of the Saucer people (before releasing it) ...

'I must strongly again impress on you the great importance of next year, and I am compiling impressions and forecasts from all over the world in relation to this. The latest is the inside story of the Lady of Fatima, who revealed to the Pope such an event for next year and who fell in a faint when told of it. We are led to believe that the Pope will make an announcement of world importance next year, after the period of prayer which she imposed is completed. . . When I get all this material together I hope to present it to all the FS societies ...

Director Stone, in short, feels that evidence - or rather, indications and signs of some coming disaster are innumerable and come from all sources - material, psychic, religionistic and mystical - and that their cumulative effect is overwhelming. He believ also, that while all groups should help to collect these data, to disseminate such facts and prepare men's minds for them is the duty primarily of religious and moral leaders everywhere, and not that of the research societies.

The headlines from the Rand Daily Mail (sup.) are as follows: TORNADOES, HAIL & RAIN SWEEP COUNTRY IN BURSTS OF FREAK WEATHER. RAIN, SNOW, HAIL, VIOLENT WINDS .....

PROBABLY 1956 - PROBABLY THE LATTER PART OF THAT YEAR! Such seems to be a consensus of opinion among those seeking to read this cosmic script. We simply pass this page along to our readers.

Assoc. D.T. Kenny may be reached: C/o Office of the Surveyor General, PO Box 403, Pretoria, Transvaal, South Africa. Our friends 'down under' welcome any cooperation.

ml

POINT OF VIEW:

Assoc. R.M. Collier (Box 71, Enka, N.C.) calls attention to the very interesting comments in the Kiplinger Washington Letter, of Nov. 12, 1955. We do not have a copy of this issue, but print a memorandum made by Assoc. RMC.

> "This issue is particularly good on present status of atomic weapons and tests. Nothing is publicly admitted, but reports are that recent discoveries have convinced the authorities of the dangers of fall-out; and because of this and the horror and public disgust with mass destruction neither side will dare to use them. Disarmament, however, is impossible due to distrust. Each will maintain the stance taken and continue atobomb construction. But over a period of years military plans will be converted to conventional though improved weapons. Nothing is publicly admitted, of course."

(In contrast, Secretary of the Air Force D.A. Quarles told the Los Angeles Rotary Club on Nov. 26, '55, that 'the Russian threat is terrible and real .... Neverbefore has the United States stood in peril of catastrophic damage all across the country in a single day. . . But this threat is offset by perhaps an even deadlier American threat to Russia...'

ESCORT!?

"We have a majority of our ships around your planet. The last convoy to arrive placed our people in our ships in the total of 2,200,000, & 20,600,000 of our people around your planet, at an established altitude from your surface of approx. 4,000 of your miles -- We do not intend to land. We can do anything from here that may be necessary ..."

The foregoing paragraph is from a supposed etherian communicator, speaking to (or through?) G.W. Van Tassel. ("Proceedings of the College of Universal Wisdom. Vol. 3, No.12, Nov. 1955. "A non-sectarian and non-profit organization for Parapsycho-Physical Research". Free copy; donations accepted). The somewhat religionistic and mystical approach of this publication (The Proceedings) is dif - ferent from that of the BSR -- but it is not to be depreciated even on the factual side. From my own point of view the paragraph quoted may very well be literal truth.

FRANK EDWARDS BROADCAST: Sta. KHJ; Hollywood 28; 9:30 pm. Sunday Dec. 4, '55.

This remarkable broadcast is in part an announcement and description of H.T. Wilkins new book, FLYING SAUCERS UNCENSORED. Price $3.50; can be ordered C.O.D. from the KHJ Station. Ask also for the Confidential Bulletin, free, with book order.

BSR Associates will recall that we have been in friendly contact and cooperation with both Mr. Wilkins and Mr. Edwards - and I add that both are favorably disposed toward our Etheric or "4-D" interpretation of the aeroform phenomena. Mr. Wilkins is a scholar and writer of distinction, and Mr. Edwards has one of the largest radio audiences in America, and has been candid and fearless in reporting events NOT otherwise available to the public. THE LONG-WATCHED POT IS ABOUT READY TO BOIL OVER. Some of the events narrated by Mr. Edwards on Sunday evening are astounding but NOT incredible - or should not be, to BSR Associates... Also, Mr. Edwards confirmed our own repeated statements about the very real and effective censorship - which now, however, is beginning to crack and leak its witch's compost in all directions.

By the grape-vine gossip: The "little man" picture from the German press, once publicised by us with several caveats, is now reported to have been genuine - and that the little man himself died in a hospital in Texas - having first made a debut on the Air Force television sets. Just maybe we can check up on this.
